HS&E ADVICE NOTE

Updated PPE standards – new PPE catalogue

REF: HSE/23/09

DESCRIPTION

Our PPE standards have been updated to signpost a new PPE catalogue, which is a one stop shop for your basic PPE needs via our Group supplier Greenham. We have been using Greenham for many years and this is just a rationalised catalogue of the products already available. This is not an opportunity to go and buy new PPE and only when current supplies need replacing should new PPE be ordered.

Any specialist PPE will need to be sourced separately.

See attached Cloud links to the updated PPE standards, PPE catalogue and PPE price list:

[HSMS-STD-Personal-Protective-Equipment.pdf](#)

[HSMS-GU-PPE-Catalogue.pdf](#)

[HSMS-GU-PPE-Catalogue-July-2023-Pricelist.xlsx](#)

We do encourage you to buy all PPE from Greenham as ultimately if we bulk buy through them then we will benefit from improved buying power with all supplies going forward, negotiating better prices in the future.

Having a centralised place, where we purchase PPE will also give us meaningful data later on when we come to review our PPE offering as we will know what products we are spending money on and the frequency items are getting replaced.

Hopefully the catalogue is self-explanatory but two things to highlight:

- The catalogue has a separate section for women's workwear.
- In relation to waistcoats, we have provided a standard keepsafe option for general operatives and visitors to site. There is also a LEO workwear option for site management and above. This would also include ICQs and HS&E Advisors etc.

If you have any questions then please do not hesitate to contact your local HS&E Advisor or Buying Department.
