Important – Please read carefully and take appropriate action

HS&E ADVICE NOTE

NEW HS&E STANDARDS (ELECTRICAL)

REF: HSE/23/11

DESCRIPTION

The Group Shared Drive and Persimmon Cloud have now been updated to include new HS&E Standards (click link to read):

[Electrical](#)

In summary, these standards set out:

- Arrangements when using generators.
- Approach to battery powered tools and charging of batteries.
- Requirements for plot isolation during works.
- Testing, inspection and user checks of site offices/ welfare units and portable electrical equipment.
- What to do if someone suffers from an electric shock.

ACTION

Please ensure you read and follow these new policies and standards.

If you have any questions then please do not hesitate to contact your local Group HS&E Advisor.
